Welcome to the parents and explanation for new parents	Introduction
Parent Consultation Meetings- are they what the parents want? All parent had options of any time in September?	One parent shared it was much better and didn't get rushed out and had more time and was much happier. One parent asked why is it done so early soon as they come back from holidays? RRK shared it is for the parents too to build that rapport with the class teacher. Like the idea of the project week next week. Parents can always come in and see the class teacher, if parent asks for an appointment.

School Readiness and Home School contract Discuss Letter/charge	Please make sure your child has PE and swimming kits are in school on a Monday. Some parents commented on the tops being too small and the office not changing them. RRK explained that the orders were placed in July and arrived during the summer break. The office staff ordered from the information given in July and not from seeing the children personally. RRK shared it was unfortunate that a lovely gesture had not proven so for all.  Some parents shared it was lovely that the PE tops were provided.  JF spoke about responsibility and children taking care and all uniform and kits to be labelled with their names so if they are lost they can be given back to the correct child.  One parent disagreed with the school charging the parents as she shared that sometimes the children forget and then the parents don't always have time to bring the kits back to school as they have other commitments.

	<p>The parent shared she felt it was not the responsibility of the parent to be remembering kits all the time and that she always makes sure the kits are by the front door every evening ready for the next day, however sometimes the children forget to pick them up. RRK suggested maybe if the parent had a tick list on the back of the front door the children could take a little bit more responsibility in remembering kits and ticking it off on the list before they leave the house. The parent shared that then the children put all there stuff down and go to the toilet and forget it anyway. So she felt that she shouldn't be charged for that reason.</p> <p>The parent went on to share that her child had lost his PE kit on the playground and then if he came school the next time with no PE kit she would be charged she felt this was unfair. RRK shared that if the child had lost the kit in school then we would do what we can to support the child and help find the lost kit however as it was lost whilst in the parents care that would be the parents responsibility not schools. All other parents disagreed.</p>
