

The Year 4 Multiplication Tables Check

Thank you for attending this meeting, the aim of which is to inform you about the times tables test your child will be sitting in June.

Key Information

- The test consists of 25 questions.
- The questions are randomly generated from each of the 12 times tables, from 1x1 up to 12x12.
- There will be 3 practice questions at the start of the check.
- Children get 6 seconds per question.
- The 'Try it out' test opens from 19th April.
- The school is given a 3 week window to administer the check
- Access arrangements can be made by the school should we deem it appropriate, e.g. for children with additional needs.
- 21 marks out of 25 is our aim for each child.
- Results are informative for the school in helping support those who need it moving forwards.

The Format

We have been using this to assess your children. The format is similar to the one they will use for the MTC.

We'd like you to give it a go to see what your child is expected to do in June.

How you can help

Times Table Rockstars

Chanting

Times Table songs

On the spot tests

Counting

Little and often across the week works best.
