

Getting ready for the National Assessments

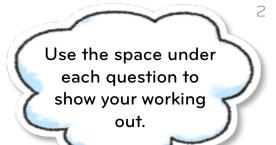

Today we are going to:

practise some of these strategies to feel more confident when answering assessment (SAT) questions.

Arithmetic Warm Up

Tip 1 & 2:

Underline key information & Cross off items

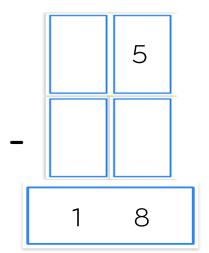

- 1) Read each question carefully and underline key information.
- 2) Cross off items as you use them.

The first one has been started for you.

1. Here are four digit cards:

Use all four cards once to make the subtraction correct.

Tip 1 & 2: Practice 1

Here are five number discs.

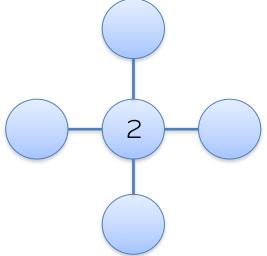

Look at the cross pattern below.

Use each disc once so that the total across is the same as the total down.

One has been done for you.

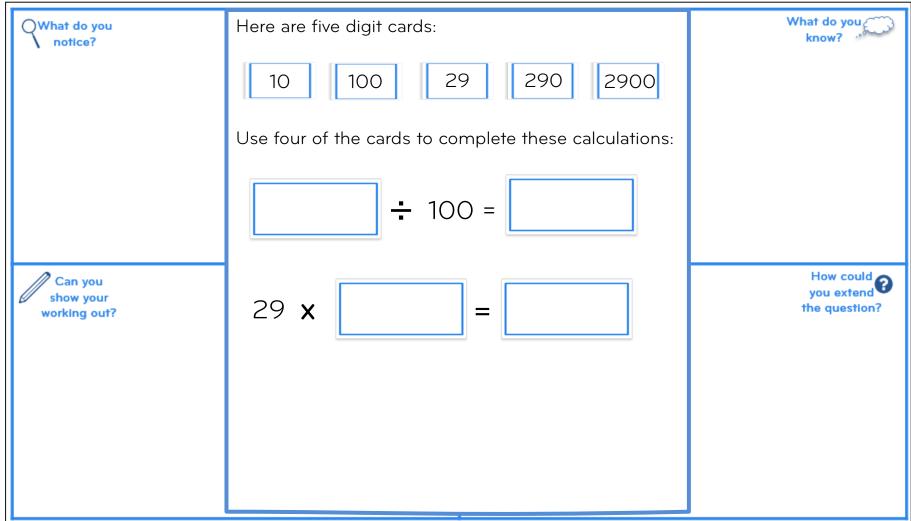

Tip 1 & 2: Practice 2

Complete

Tip 3: Use bar models

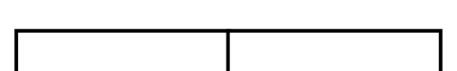

- 1) Read the question carefully and underline key information.
- 2) Read the question again.
- 3) Stop after each sentence.
- 4) Decide if there is a calculation you can do.

This first one has been started for you.

Toby and Ellie have 15 cards each Ellie gives Toby 11 cards.
How many cards do Toby and Ellie each have?

Ellie

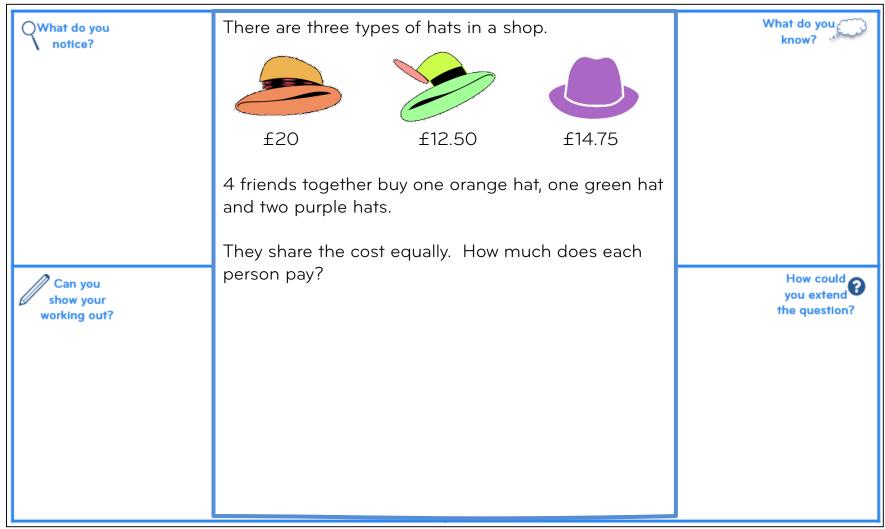

Tip 3: Practice 1

Complete

Tip 3: Practice 2

Use a simple drawing to model the problem in order to help you solve it.

PJ baked 45 cupcakes for a school fair.

Jeremy sneakily ate $\frac{1}{5}$ of them whilst they were cooling.

How many cupcakes did PJ take to the fair?

Tip 4:

Be careful with units of measurement

- 1) Read each question carefully. 2) Underline key information.
- 3) Work in one unit of measurement only.

The first one has been started for you.

Write these times in order, starting with the shortest.

1 minute 55 seconds

155 seconds

105 seconds

1155 seconds

1155 seconds

1155 seconds

Tip 4: Practice 1

A box of cereal contains 1kg of cereal.

A family eats 125g each a day.

How many days does the box of cereal last?

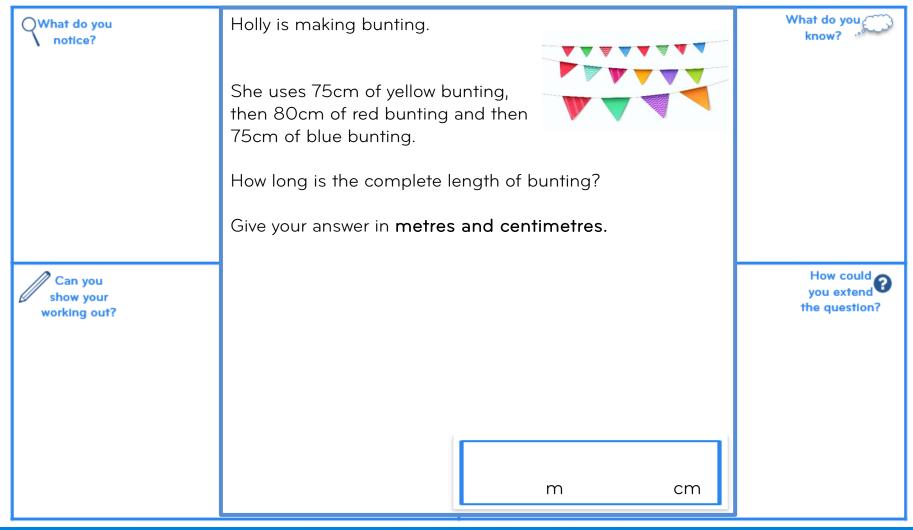

Tip 4: Practice 2

Complete

Tip 5: What to do if you are stuck

Here's what Freddie, Anne and Carlo do if they get stuck on a test question:

I put a circle around the question number and come back to it later

I think, 'I must be able to do something'. So I look for any words I know, and I always have a go. I underline the key information and then try and do some working. I may get a mark for some working.

Are these good ideas? Why?

Assessment strategies

What are the main strategies (tips) we looked at today that you can use in your National Assessment (SATs).

What strategies will you use if you are stuck on a question?

Let's review:

Put a mark on the scale below to show how you feel about answering SATs questions:
